

Installing Formilla into your Miva Merchant website is a breeze! In just a few short steps, you can have Formilla installed on your website ready to use. The Formilla installation script just needs to be copied and pasted into the Global Footer in your Miva Merchant admin. Below are instructions showing how this is done.

1. You need to be registered for a Formilla account. Sign up for a Formilla account [here](#).
2. Find your Formilla installation script by simply logging into your Formilla account, clicking on **Settings** in the left menu, then clicking on **Installation**. You'll see the chat script on the right-hand side of the page in the large text area. Keep this script handy to paste into your Miva Merchant site in a bit.

The screenshot shows the Formilla account interface. On the left is a dark blue sidebar with icons for Dashboard, Contacts, Automation, Settings (circled in red), and Help. The 'Settings' menu item is highlighted with a red box and the word 'Installation' is written next to it. A red arrow points from this box to the installation script on the right. The main content area has a header with 'UPGRADE' and 'Return to Weebly' buttons, and a title 'Installation Instructions'. Below the title, the 'Plugin ID' is displayed as 'cs8fb158-d27f-495f-ad3a-d875f38cdeca'. A text block explains that the script can be used to get up and running. The installation script itself is shown in a large text area, starting with a script tag and a function definition.

Installation Instructions

Plugin ID **cs8fb158-d27f-495f-ad3a-d875f38cdeca**

To install Formilla on your website, you can use [one of our many plugins](#) to get up and running in the </body> tag of your site and you'll be all done!

```
<script type="text/javascript">
(function () {
  var head = document.getElementsByTagName("head").item(0);
  var script = document.createElement("script");

  var src = (document.location.protocol == 'https:'
    ? 'https://www.formilla.com/scripts/feedback.js'
    : 'http://www.formilla.com/scripts/feedback.js');

  script.setAttribute("type", "text/javascript");
  script.setAttribute("src", src); script.setAttribute("async", true);

  var complete = false;

  script.onload = script.onreadystatechange = function () {
    if (!complete && (!this.readyState
      || this.readyState == 'loaded'
      || this.readyState == 'complete')) {
      complete = true;
      Formilla.guid = 'cs8fb158-d27f-495f-ad3a-d875f38cdeca';
      Formilla.loadWidgets();
    }
  };

  head.appendChild(script);
})();
</script>
```

Copy this whole script

3. Log into your Miva Merchant admin interface and click on **User Interface**
